

RidePod® QR

PUBLIC BIKE DATA DISPLAY SOLUTION FROM METROCOUNT®

Scan the RidePod QR code at your public site and visualise active transport data.

- Interactive map of all your public cycling data sites viewable on any smart phone.
- Powered by ATLYST® with frequent data refresh cycles.
- Each site can display pedestrian and cycling volumes, speed, direction, gap and bike or scooter types.
- Choose from a custom placemaking sign or sticker.
